Homework Example

Gretchen Martinet

Problem 1

```
15 + 10
## [1] 25
```

I've added 15 and 10.

Problem 2

Part a

```
15 - 10
## [1] 5
```

I've subtracted 10 from 15.

Part b

```
15 - 5 - 5
## [1] 5
# Reference 2 (if that's where I found this code)
```

I've now done it a different way.
